Indiana Dahlias

NEW ALBANY, INDIANA

A half million rugged, vigorous roots grown under healthy, natural conditions—no forcing of any kind, no irrigation. This method makes them produce fine growth and abundance of bloom for you.

This list comprises **ONLY THE BEST** of both new and old varieties;—we discard any dahlia which is not meritorious.

LOWEST PRICES EVER OFFERED!

CAN YOU AFFORD TO BUY DAHLIAS?

How many dimes do you spend in a year for just one evening's pleasure?

Ten dimes make a dollar; and a dollar or two invested in dahlias will bring a whole season's enjoyment. We ALL need

*food for the good of the body; but
flowers for the good of the soul.*

If you are not a valued customer of ours, you will become one if you give us a chance to prove that our roots are the best to be had for good results; our prices are always as low as possible; our service the best that can be given.

Our extreme low prices and exceptional offers will move our large stock early, so send in that order NOW. NOW, you can be sure of getting what you want; we will hold roots until wanted, on small deposit. Our roots are sent prepaid, at prices given, but if you will allow postage at the rate of one pound for each 4 roots (see your postmaster as to amount necessary to your postoffice), we will add extra roots to your order, for more than the amount.

If you sell roots or flowers, send your card or letter-head for our wholesale prices.

WHY ORDER FROM US?

Because we GROW our stock and know just what it is. We guarantee all stock healthy and true to name. Let us quote a few extracts from customers, received recently. "Bought my dahlias from——— (a large grower) this year on account of his lower prices, but—never again! Your dahlias for me, hereafter."

"The dahlia roots we bought of you last spring looked so dirty (we NEVER wash our roots as they keep better) that we were disappointed. But you should see them in bloom, today, the finest we ever saw."

"We intend buying from you, hereafter; this is the first time we bought from you, and the first time we got what we wanted, and no STUNTED or DISEASED plants."

OUR OWN INTRODUCTIONS

We do not like to "blow our own horn," but we have originated a number of Dahlias which will challenge the world for comparison. Numberless times we have been told our originations are beyond any other, anywhere. You ask, "Where are our Awards, our Prizes?" We answer, we never exhibited in competition but once and then won "First Prize on Display," (at Ky. State Fair).

Since 1924 we have not sent any to any trial grounds; that year we sent 'Halo' and 'Square Deal' to Storrs and received only mediocre scores, which we knew, and anyone who has grown them knows, was unjust, as they are two of the best and finest Dahlias ever put on the market. We will continue our offer of "Money back" to anyone buying them and being dissatisfied, but in 7 years have never had to return as much as one cent, and received innumerable praises of them.

In originating new varieties we have a certain standard of excellence—they must be superior in some way to existing varieties. Our first consideration is a good stem; we also want beauty in color, correctness in shape, good growing habits and lastly, size, which, after all, is unimportant if the Dahlia has other fine qualities. However, we have a large number of giants, and we honestly believe 'Wonder Pink' to be the largest meritorious Dahlia in cultivation today. It NEVER gets small.

Opposite we give you a partial list of our past introductions, and a short, true description of each. Buy any of them with the understanding that you receive satisfaction or **your money back**.

We will send one each of the foregoing list for \$45.00! No finer lot of Dahlias could be had.

In getting out this folder, instead of a regular catalog, we save hundreds of dollars, which we pass along to you in our lower prices. We want to add 5,000 new names to our list of customers this year, and we expect our prices and service to do it.

Will appreciate it greatly if you will tell your flower-growing friends and neighbors about our prices and have them send for our list. Of course, all people make mistake sometimes, so, if any error or dissatisfaction occurs with you, write us—we'll straighten it out. Give us a trial order; you will be pleased next summer.

Our terms: Remit by cash, money order or check with order; or will send C. O. D. for balance, if 25% of amount of order accompanies order. All tubers at these prices are sent postpaid, if order is \$1.00 or more; smaller orders, add 10c for expense. If order is to be sent insured, add, according to the amount of order (see postmaster).

The descriptions given in this list, while necessarily short, give a true idea of the varieties listed.

The letter 'B' after name of the variety, means that it belongs to the Ball or Show type; the letter 'D', to the decorative; 'I-D.' to the fluffy or curled leaf decorative type C; to the cactus type; S-C, to the semi-cactus (wider petals); 'P,' to the peony-flowered type; and 'Pom'; to the Pompons.
